- **ML628_4:** 950mL / 100mm
- **ML628_6:** 950mL / 150mm

Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*

1. Undo and remove the mounting lock nut from the spout.

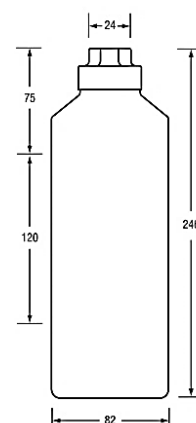

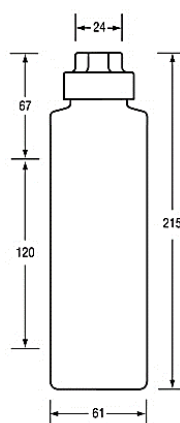

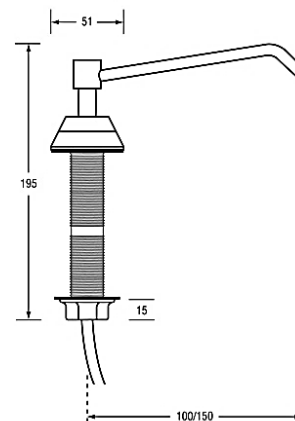

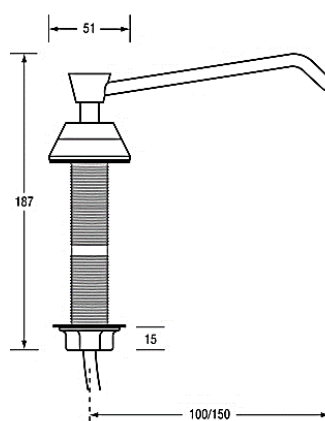

2. Move the rubber seal and washer to the top of the shank, and insert the shank into the hole in the basin/vanity. Ensure that the seal and washer are flush with the top of the vanity/basin. This will prevent any leaks.
3. Replace the mounting nut onto the threaded shank and tighten to the underneath of the basin/vanity, ensure that the seal is tight.
4. Screw the bottle onto the threaded shank from underneath the basin/vanity and tighten until it is secure.
