- **Overall:** 850mmL x 315mmH
- **Grab Rail:** 215mmH from outer edge to edge
- **Mounting Bracket:** 104mmW x 315mmH x 30~50mmD x 2.5mmT
- **Mounting Holes:** 7 off by 8mmØ

Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*
- *Fixings and anchors are not included with the units and are the responsibility of the installer to appropriately fix the unit to the wall.*
- Hold the unit on a wall in the desired location, and mark the 8 mounting holes.
- Secure unit to wall using suitable fixings and ensure that the mounting flange is flat against the wall.
- To finish installation, check that the grab rail moves easily from the horizontal position to the upright position. Ensure that the grab rail does not fall down when in the upright position.
- Apply a small amount of pressure to release the grab rail from upright position and lower it back to the horizontal position.

Operation

- Grab rail can be lowered into a horizontal position when in use, and folded into an upright position for storage.
- Wire for Nurse Call Button is provided.

Features

- Grab rail comes pre-tensioned, can be tensioned as desired using an Allen Key.

Safety Warning

- Ensure that there is proper structure support within the wall. Grab rails are no stronger than the anchors and walls to which they are attached. Grab rails must be firmly secured in order to support the loads for which they are intended.
